

Pallet

Central America Pallet

Measurements: 1092 x 940 x 152 mm

Material: HDPE (virgin or recycled)

Weight: 19 kg (incl. rubber plugs)

Static load⁽²⁾: 3300 kg

Dynamic load⁽³⁾: 1100 kg

Racking load⁽⁴⁾: 1100 kg

Colour: Black

Openings: 4 way entry pallet

Developed for: Crates, kegs, cans,
PET bottles

Load: Different values may be obtained when used under different conditions, such as load type, ambient temperature and standing time. Specific requirements can be identified upon request.

(2) Static load: compression strength with level floor contact and evenly distributed load at 20°C

(3) Dynamic load: on the forklift with selected, evenly distributed load at 20°C

(4) Racking: evenly distributed load along the longitudinal sides resting on two supports at 20°C

Pallet

1092 x 940 x 152 mm

Features

Good visibility Customized inserts

Good visibility in the dark, better visual orientation for the forklift driver, less damaged pallets
